DETAILED ACTION

Allowable Subject Matter

1. Claims 1-20 are allowed.

The references fail to teach, disclose, or suggest, either alone or in combination, several plastic bodies along with the terminal groups extending through the same adapted to be fixed in predetermined positions, the plastic bodies fixed in a predetermined relative position, along with the terminal member groups extending through the same, being movable perpendicularly to the circuit board surface independently of each other and in combination with the rest of the limitations of the base claims.

Applicant's arguments (Pages 5-6) have been considered and are deemed persuasive. The Examiner interprets "the plastic bodies fixed in a predetermined relative position, along with the terminal member groups extending through the same, being movable perpendicularly to the circuit board surface independently of each other" as the plastic bodies being fixed in position side-to-side manner by way of the plastic material between the bodies and at the same time being independently movable vertically by way of the ribs as explained in Applicant's arguments (Page 5).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably

accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
